Editor's note

EPC notices rose to 116 from 98 this week and tenders edged up to 34, while awards slipped to 49. One filer dominated the awards: China National Chemical Engineering (CNCEC) disclosed five contracts in a single filing, from a 300MW solar plant in Ghana to an FGL expansion in Algeria. The largest award was the US$403m Mechanical, Electrical and DSEAR Services contract in the UK. For bidders, the open work is in mid-sized European tenders, most of them closing in November, while CNCEC now has work committed on five jobs in three countries.

Who this is for

Suppliers and contractors: awards = who is buying now; tenders = where to bid.

Owners and procurement: award values = reference prices; busy contractors = who is booked.

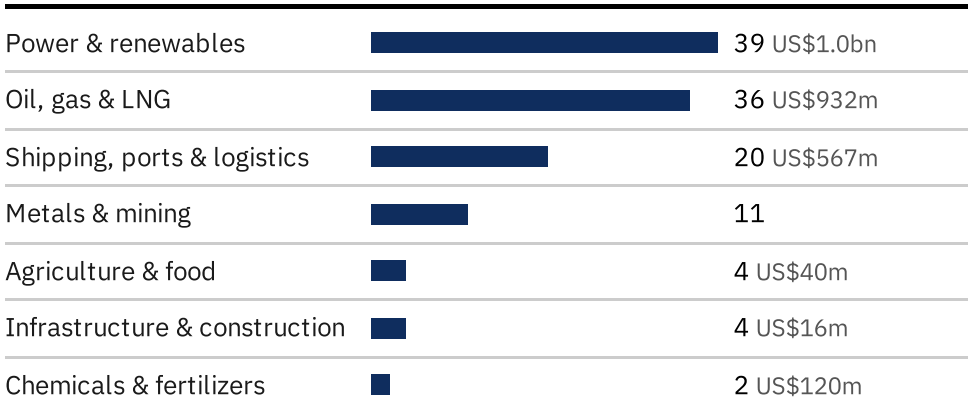

Traders, charterers, finance: flows and lane pressure = what moves next; projects = tomorrow's cargo and credit.
