SIGNAL 1 OF 3

Critical

Policy

Trump softens push for a US diesel export ban

1 of 38

Critical signals in the day's scan

Argus Media reports that Trump has moderated his calls for a diesel export ban.

SIGNAL 1 OF 3 • WHY IT MATTERS

Trump softens push for a US diesel export ban

WHY IT MATTERS

A softer US stance bears on US diesel export flows. The feed carries only the headline, so it gives no volumes, routes or timing to measure the effect.

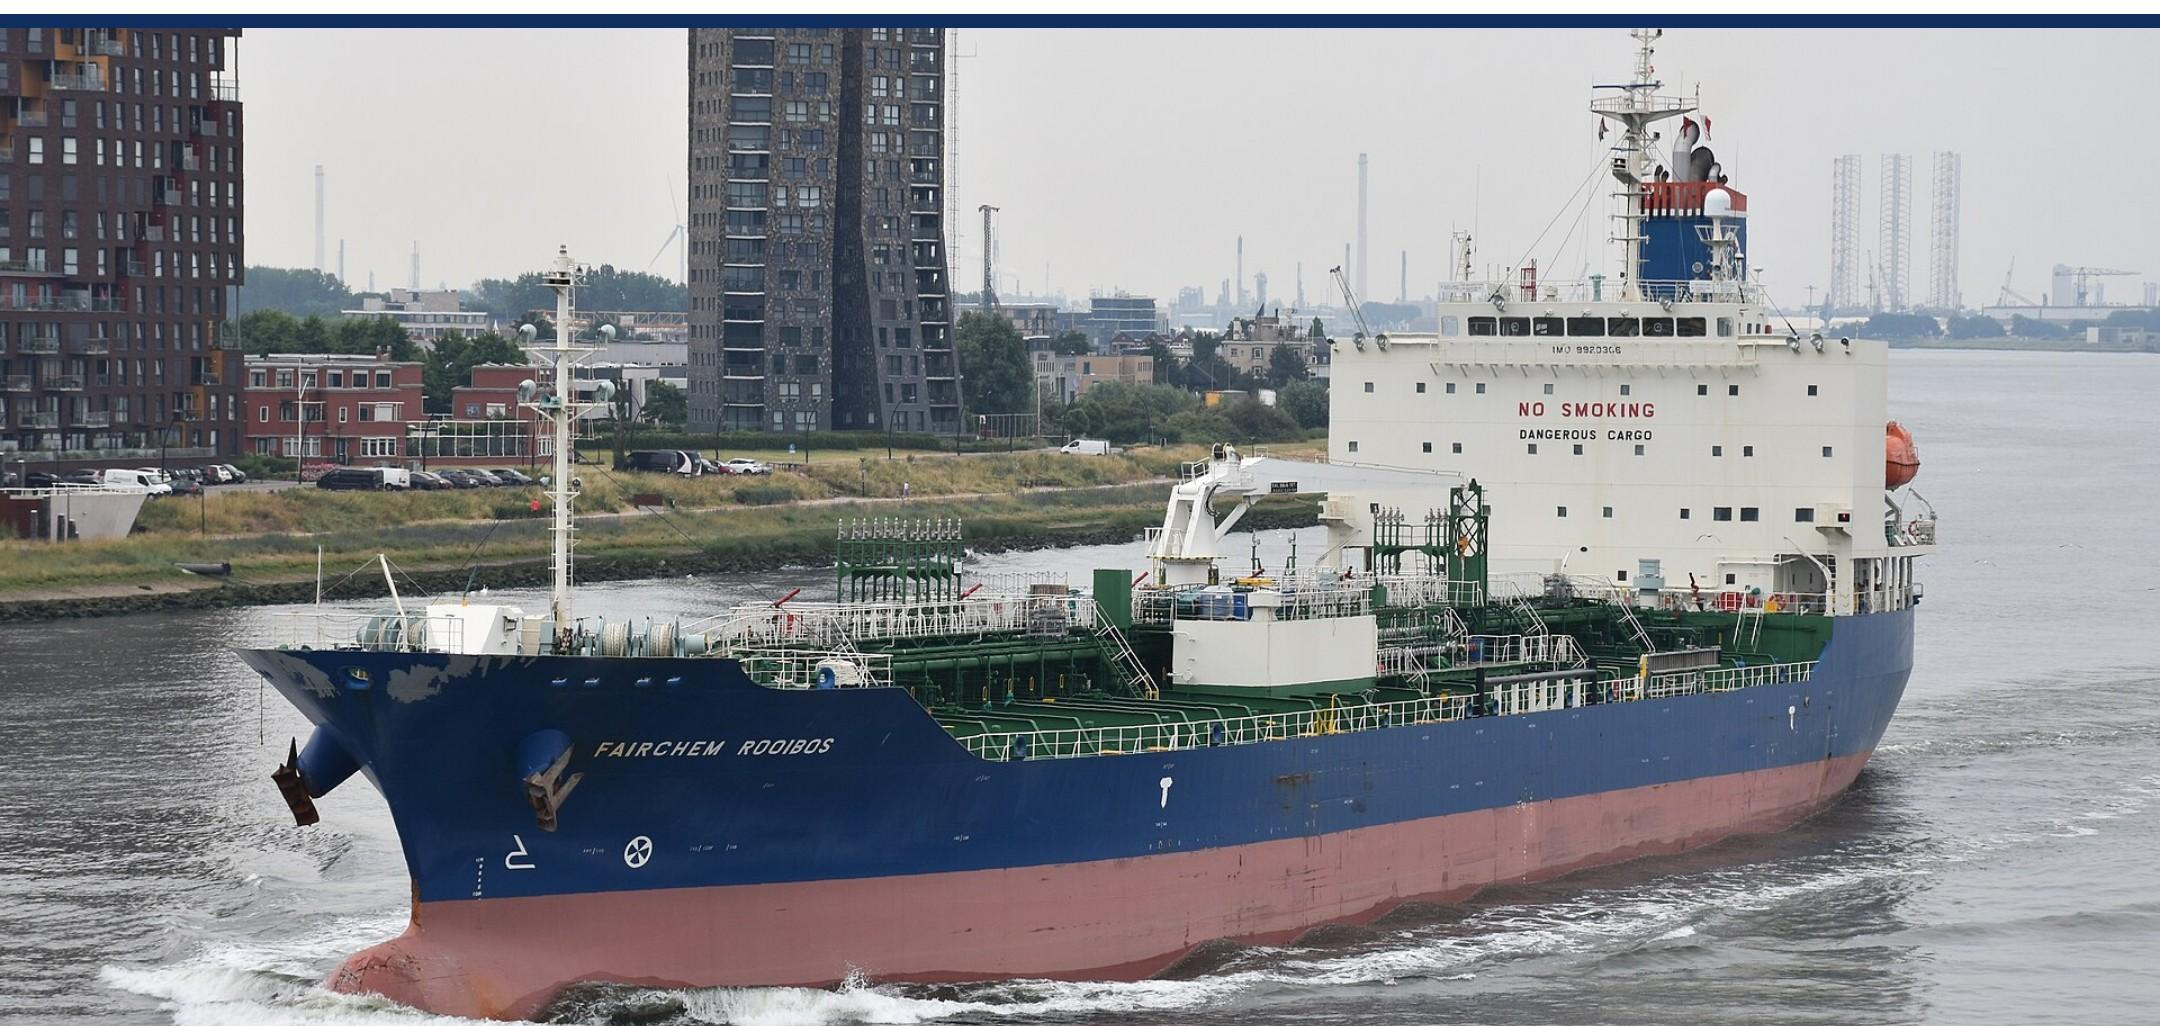

KEY FACTS

- Reported by Argus Media on 1 October 2026.
 - Scored 14, the top-ranked of the day's 38 signals.
 - Also on radar: Brownfield reports farmers face mounting diesel expenses.
-

WHAT TO WATCH

Any formal US policy step on diesel exports. The material gives no decision date or details.

SIGNAL 2 OF 3

Elevated

Policy

Russia keeps its diesel export ban through October

End-Oct

New expiry of Russia's diesel export ban, per Reuters

Reuters reports that Russia has extended its diesel export ban until the end of October.

SIGNAL 2 OF 3 · WHY IT MATTERS

Russia keeps its diesel export ban through October

WHY IT MATTERS

The extension keeps Russian diesel exports restricted for the rest of October. The material does not give volumes, scope or exemptions.

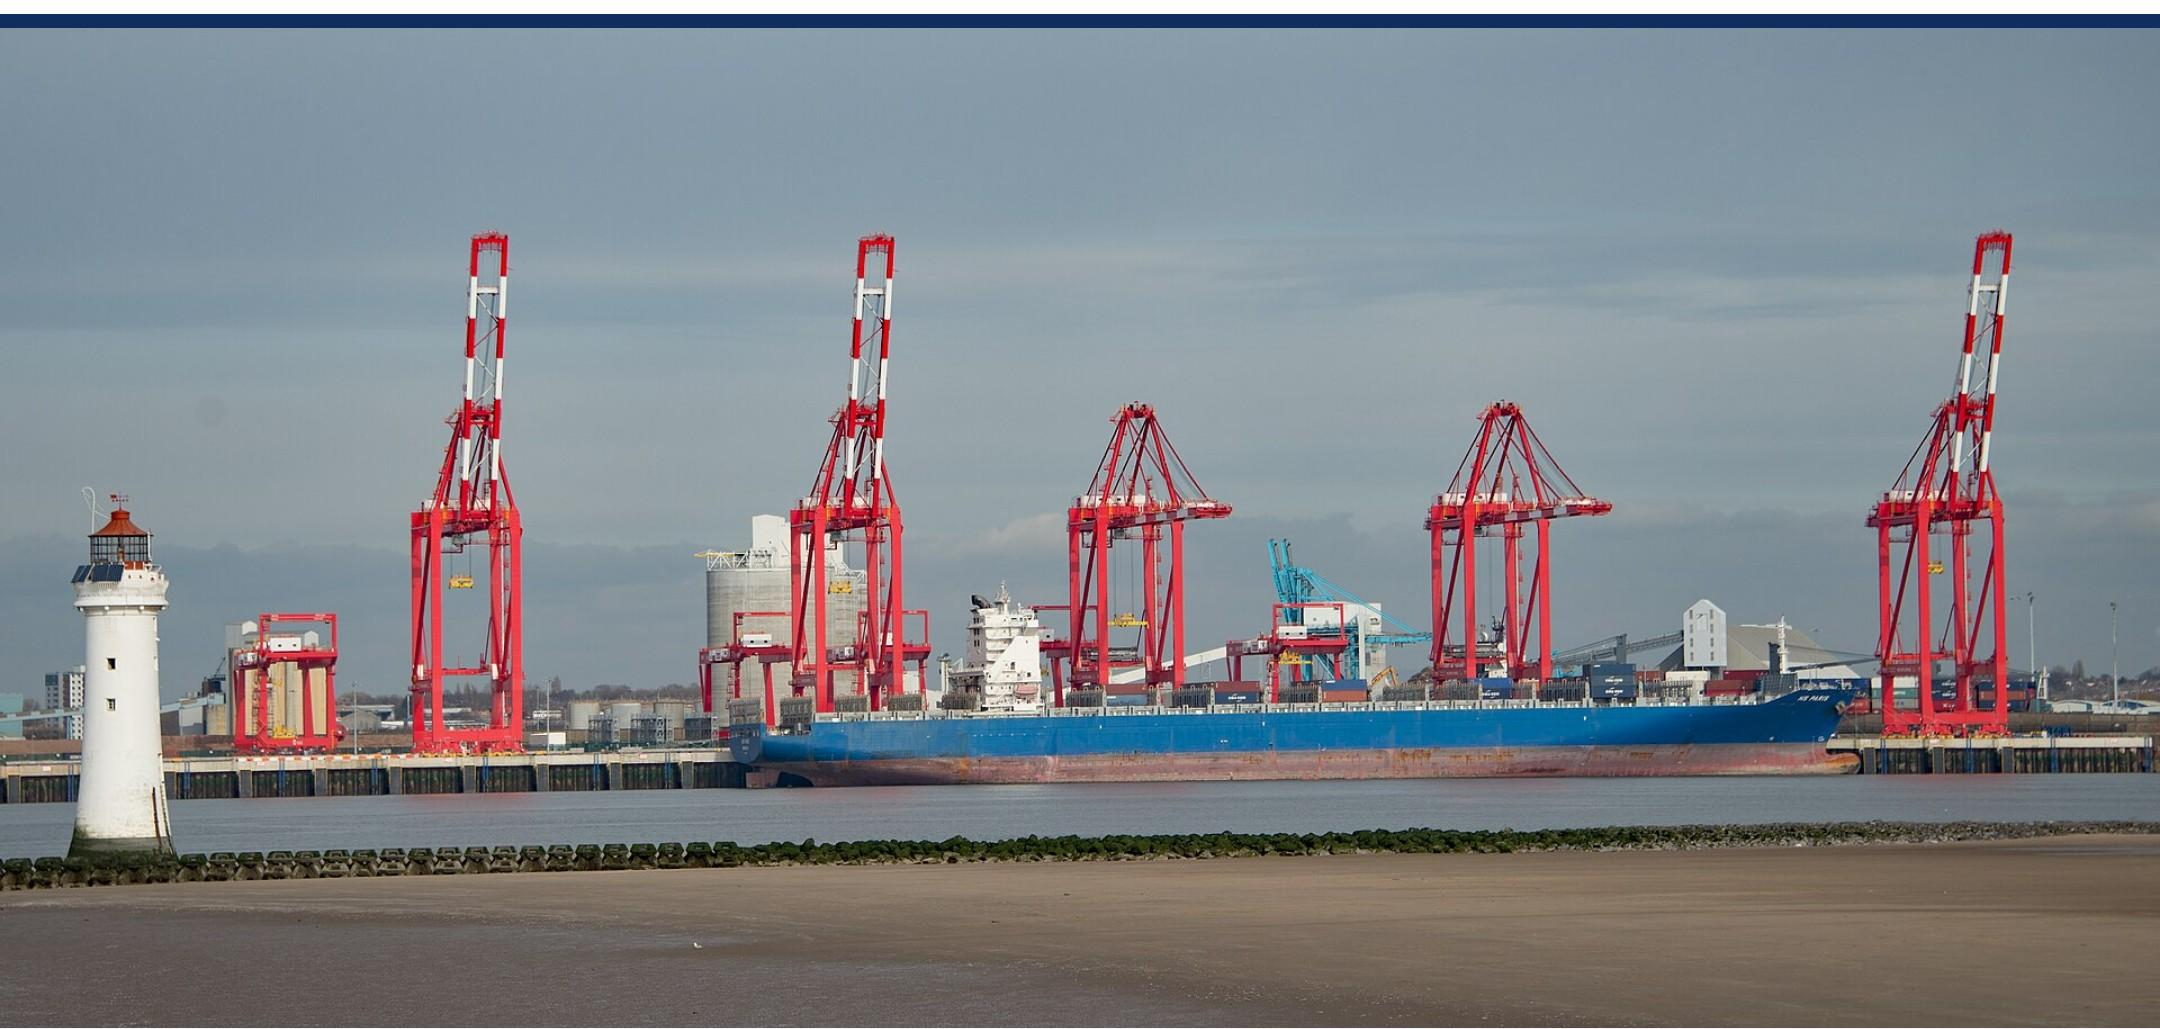

KEY FACTS

- Reported by Reuters on 1 October 2026.
 - Rated Elevated with a score of 11, in the Policy sector.
 - The second diesel export curb among the day's top three signals.
-

WHAT TO WATCH

Whether Russia extends the ban again when it expires at the end of October.

SIGNAL 3 OF 3

Elevated

Shipping

Metals, petroleum and chemicals lift US rail volumes

537,397

US weekly carloads and intermodal units, per
AAR

Per AAR data reported by FreightWaves, US rail traffic for the week ending September 26 reached 537,397 units: 235,787 carloads (up 3% y/y) and 301,610 intermodal units (up 6.3%).

SIGNAL 3 OF 3 · WHY IT MATTERS

Metals, petroleum and chemicals lift US rail volumes

WHY IT MATTERS

Gains came from metallic ores and metals (+9.5%), petroleum products (+9.4%) and chemicals (+7.2%). Coal carloads fell 2.1%, and domestic coal consumption was down 11.4% y/y.

KEY FACTS

- Coal inventories are up 1.4 million tons since the end of 2025.
 - First 38 weeks: 8,679,882 carloads (+2.7%) and 10,778,696 intermodal units (+4.1%).
 - North American weekly traffic on nine railroads: 733,610 units, up 3.5%.
-

WHAT TO WATCH

Coal in the next AAR weekly data: FreightWaves says the run-up to winter has been slow, with US coal production down 2.4% through Sept. 5.
