EDITOR'S NOTE

Tenders rose from 4 to 25 this week and EPC items from 53 to 87, while flow stories fell from 346 to 278. Two of the largest contracts have just been booked: GMC Civil & Mechanical Engineering and Murphy International took the [US\\$1.0bn Gas Networks Ireland award](#), and NGED let a US\$796m substation civil works framework. For bidders, the opportunity is now the grid and rail tenders still open in Hungary, Sweden and Romania, starting with the [Debr.-Ny.egyháza signalling package](#), which closes on 8 Oct.

OIL, GAS & LNG

 **Venezuela’s Oil Exports Drop 9% as Freight Costs Bite**
oilprice.com

What it means: Venezuelan exports fell nearly 9% to 1.08 million barrels per day as tanker costs soared, so freight now weighs heavily on the cost of those barrels.

SHIPPING, PORTS & LOGISTICS [Panama Canal](#)

 **New limits: More ships can transit this key cargo chokepoint**
freightwaves.com

What it means: The Panama Canal now has more daily slots for the largest container vessels, which should ease booking pressure for shippers using that route.

OIL, GAS & LNG [Strait of Hormuz](#)

 **Middle East Oil Exports Stage a Remarkable Comeback**
oilprice.com · 2 reports this week

What it means: Middle East crude exports in September were the highest since the Iran war began, so buyers have more barrels from the region to choose from.
